SA Acceptable Use of the Internet Policy Form

In making decisions regarding student access to the Internet, Schelastic Academy (SA) considers its own stated educational mission. Electronic information research skills are now important to the preparation of citizens and future employees. Access to the Internet enables students to explore thousands of libraries, databases, and other resources while exchanging messages with people around the world. SA expects that faculty will blend thoughtful use of the Internet throughout the curriculum and will provide guidance and instruction to students in its use. While students will be able to move beyond those resources to others that have not been previewed by staff, **Schelastic Academy reserves the right to limit Internet access for grade appropriateness and content.** Outside of school, families bear the responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Students utilizing Schelastic Academy provided Internet access must first have the permission of and must be supervised by Schelastic Academy professional staff. Students utilizing school-provided Internet access are responsible for good behavior on-line just as they are in the classroom or other area of the school. The same general rules for behavior and communications apply.

The purpose of Schelastic Academy provided Internet access is to facilitate communications in support of research and education. To remain eligible as users, students' must be in support of and consistent with the educational objectives of Schelastic Academy and its Acceptable Use of Technology Agreement. **Access is a privilege, not a right. Access entails responsibility.**

Schelastic Academy blocks certain websites for inappropriateness. If a student accidentally connects to websites that display sexually explicit, racist, or potentially offensive materials or music, the student must immediately disconnect from the site and notify the teacher/ technology director. The ability to connect to such sites does not imply students are granted permission to visit the site. If a student's Internet activity reveals a clear intent to visit inappropriate Internet websites, disciplinary action will be taken which may result in student dismissal from school.

Students are not permitted to visit chat rooms or blog sites, social media accounts, gaming sites or stream music unless specifically for classroom instruction as guided by classroom teacher. The ability to access these sites does not imply that permission is granted to visit the site.

All Internet access is to go through the firewall. If a student is found to be deliberately attempting to bypass the firewall or school installed filter, disciplinary action will be taken by the administration.

All Internet activity on SA computers is subject to monitoring and reviews by the SA technology department and the administrator.

All students and a parent or legal guardian are required to sign this document and return it to the administration office before student use of Schelastic Academy computers and technology.
